Now for Active Work.

Much interest is being taken in the contest for the Piano and other prizes to be given away by the CAMPBELL INTERURBAN PRESS. There is yet time for others to enter and stand an equal opportunity of earning these gifts. Send the Press to your eastern friends and relatives, or have them subscribe and let the credits be applied to the one desired. Let us see how many new subscriptions can come in this week. .....THIS IS THE PIANO.....

Some Young Lady Will Get.

Given Away by the "Interurban Press."

READ!

ON MARCH 4, 1905, the day the President will be inaugurated, we propose to give absolutely FREE OF COST to the lady who secures for us the largest amount of money for subscriptions or advertising to the CAMPBELL INTERURBAN PRESS a beautiful Golden Oak Curtaz Piano, costing \$325.00, now on exhibition in our show window. It must be seen to be appreciated.

To the young man or lady, boy or girl, who brings in the second largest amount we will give a \$50.00 Scholarship Course in the Pacific Coast Business College.

To the young man or lady, boy or girl, who brings in the third largest amount we will give a beautiful solid Silver Hair Brush and Comb in a neat case.

To the young man or lady, boy or girl, who brings in the fourth largest amount we will give a fine French Plate Hand Mirror.

WHO WILL WIN THE
\$325 CURTAZ PIANO?

Now As to the Plan

Every subscription to the PRESS of \$1 will count as 100 credits, and you can subscribe for as many years as you wish and have 100 credits for each subscription placed to the credit of any of the young lady contestants. Every advertisement secured for the paper will be governed by the same rule. A dollar a month ad. will count for 100 credits; a two dollar ad. 200 credits, etc. Paid locals will count the same. Credits given for every penny turned into this office between now and March 4th, '05. We want young men and young ladies in the outlying districts to go to work for the Press, as well as in town. How can you earn such valuable premiums more easily? An hour or two a day from now on may do it. The contest will be conducted in a perfectly honest and honorable manner and all parties going to work can depend on it that they will be treated absolutely fair. Come in and get the necessary information. Let us explain the plan to you.

NOTE--Those who have paid anything since the PRESS started either for back subscriptions or in advance, or for advertising, are entitled to come in and have their credits counted.

GREETING 1905 A HAPPY NEW YEAR

BEING THE "SCHOOLMARM."

EDITOR OF PRESS:—

I understand that two of my letters were lost in the general confusion of the newspaper business (*Visitor*) in Campbell not long ago, and am very sorry, but may at some future time be able to write you again of the trip into camp, and the first experiences.

The first week in September a notice came from the County Superintendent of Schools that the Teachers' Institute of Trinity County would convene in Weaver-ville from the 21st to 23rd inclusive of the month. I read it and took a survey of the sky to see if it didn't look as though there might be cyclone, blizzard, or something else that it would be perfectly impossible to travel through, for Weaver lay sixty miles away over the trail. Of course it was impossible for me to take the ride alone as there are more than twenty miles without a habitation of any kind; so I arranged to take both Mrs. Ladd's boys, and have them stay over with me.

Up to Sunday night it looked very stormy indeed, and we expected not to be able to make the trip, but late in the evening it cleared and we began to stuff our wardrobes into flour sacks. Before six o'clock on Monday morning we climbed on our mules, and turned their heads to the south. My steed answered to the euphonous name of "Rose," and many adverse strokes of fate had much soured her disposition. On the way into the camp a little over a month before, I had refused a spur under the mistaken impression that they were objects of tor-

ture, but time had taught me wisdom; and when on reaching the mine, the superintendent asked me if he couldn't get me a spur, I said "yes."

We found the brush on the summit of the mountains very wet, and soon the new riding skirt which I had taken such pride in, began to have very much the appearance of a much-used dish rag, and the water dripped from it in that artistic way that the poets rave about. At noon we reached the Keystone mine, the only habitation of any kind in nearly forty miles. As the old gentlemen shook hands with me, he said feelingly, "Well, you have had a terrible time of it since you went in a month ago, haven't you?" Terrible time! Why, it almost took my breath away for I had enjoyed every minute.

About five o'clock we finished our forty mile ride and said "Whoa" in North Fork. I stopped there on my way in, and they received me very kindly when I made this second visit. Were we tired? Some, but one gets rested, you know. I had just given my hair a much needed pat or two, and reappeared on the scene of action, and inquired whether the teacher from Lower Trinity had passed by or not, when we looked up, and lo! in the distance two solitary female figures were approaching on horseback—at least they would have been if one hadn't been a mule-Mary and a lady from her district. Our meeting was simply rapturous, and we talked that night until we were afraid that there would be a general uprising of the other lodgers and there would be no "schoolmarm's" less when they were counted.

With the passing of the old year and the coming of the new we tender the compliments of the season to our patrons, our friends and to all others.

To those who have favored us with their patronage in the past years we extend our thanks and an assurance of our best efforts in serving them in the future.

To those who have not yet favored us with their trade we wish to say that it is our earnest endeavor to offer the people of Campbell the best pharmaceutical service that is to be found ANYWHERE.

Our only resolution for the coming year is as always, to try to do still better those things that we now do well, and to extend and improve our business in every way possible.

May the New Year be a bright and prosperous one for you.

Keep this out of the paper and tell my girl it was the stomach trouble.

The ride into Weaver through the clear autumn air was very pleasant indeed; the trail winds over the mountains and beside the Trinity river, which always reminds me of—

"The yellow Tiber that flows by the walls of Rome—

Father Tiber to whom the Romans pray" because it is so muddy with earth from the mines. When we rode into town we certainly presented a spectacle to furnish amusement for the natives. We went to the Union Hotel where I stopped when I

came into the county, and they spared no pains to make us feel at home. I shall always cherish the most pleasant memories of their kindness.

Institute passed very quietly, and it rained, rained, rained, and 'schoolmarm's' waded back and forth between the hotel and the hall with very little enjoyment to themselves, but apparently a great deal for the spectators. The storm was very severe, and one day we were all startled by a clap of thunder louder than usual, and found that four fine horses had been struck by lightning and killed only a few yards from the corner of the court house.

On Friday it cleared a little and we began to make arrangements to start home, for we were just a little afraid that the snow might get so deep that we would be stormed out. When we had gone only about half a mile, it began to rain up here, but we rode on into Junction City ten miles away. Of course we were wet through, but turned the dining room of the hotel into a drying establishment, and were soon quite comfortable. We were up before four o'clock on Saturday morning to see Mary and her friend safely started with the mail carrier, but didn't begin our ride until after eight, as it looked so stormy, that there seemed no chance of our getting over the mountains.

At last we started, and Denny lay something like 50 miles away. It rained some, but we kept traveling up nearer and nearer to the snow line. A little after three we reached Keystone, twenty-two miles from home, and stopped to feed the mules and eat a lunch, and see that we had matches and candles for if the snow

RESOLVE

Build on resolve and not upon regret,
The structure of thy future. Do not grope
Among the shadows of old sins, but let
Thine own soul's light shine on the path of hope
And dissipate the darkness. Waste no tears
Upon the blasted record of lost years.
But turn the leaf and smile to see
The fair white pages that remain for thee.

Prate not of thy repentance. But believe
The spark divine dwells in thee; let it grow.
That which the upreaching spirit can achieve
The grand and all creative forces know;
They will assist and strengthen as the light
Lifts up the acorn to the oak tree's height.
Thou hast but to resolve, and lo! God's whole
Great universe shall fortify thy soul.

—By Ella Wheeler Wilcox

HE WAS FAIRLY ELECTED

The contest of C. R. Williams to secure the office of Recorder of Santa Clara County, now held by Thomas Treanor, is creating a great deal of interest. There is no denying the fact that about all the Democrats and a large number of Republicans of Santa Clara County believe Mr. Treanor was fairly elected to the office and is entitled to hold it. But against this comes the decision of the Superior and Supreme Courts to emphatically dispute Mr. Treanor's claim and it now seems that through a technicality too trifling to be considered seriously, Mr. Treanor will lose the office. The writer voted for Mr. Williams and hoped to see him win out with a handsome majority, but the result of the election convinced us that Mr. Treanor received a majority of the votes and we are uncompromisingly in favor of the will of the majority carrying the day regardless of whether it elects the man we voted for or against.—*Santa Clara Journal*.

Mr. Treanor was elected by some 600 votes, but through a technicality he is being forced to give up his office. He has held the position for two years, and if defeated, Mr. Williams will no doubt be given those two years back pay, after Mr. Treanor has paid the expenses of the office. Nothing fair in making the County pay two salaries for the same work.

County Auditor Parker, whose case is identical with that of Williams secured his office by a compromise with Mr. Murphy, whom Parker supplanted, and now Parker is attempting to collect his back pay, which he did not in reality earn.

The whole proceeding is illegitimate and unfair and the taxpayers should make a protest that leaves no doubt as to their feelings in the matter.

THE *San Jose Ledger* in the course of a two-page writeup of Campbell has the following to say of our town:

"Campbell, the 'Orchard City.' Never was a name more appropriately applied, as Campbell, surrounded by

hundreds of acres of orchards, is indeed a city of orchards. Santa Clara has within its boundaries many hustling, up-to-date and growing towns, but in Campbell it has a town that occupies a place in the front row. No town in the county of equal size leads it. In fact, there is no town of equal size in the entire state that has more attractions for the business man or private citizen. If Campbell possessed the age of many similar places it would lead them all, but where Campbell now stands there were waving fields of grain twenty years ago. Where are now located stores, shops, churches, schools and beautiful residences, there were immense fields of wheat. Campbell was discovered in 1887; that is, the location was found. In that year Mr. Benjamin Campbell came into possession of the land and decided that there was the ideal place on which to build a town. In the year mentioned, town lots were laid out, and from that time to the present the growth of Campbell has gone forward with a steady, constant growth. There has never been a boom, but as years passed, people looking for an ideal home location found in Campbell all they desired. As the population increased there came a natural demand for stores, until now Campbell is supplied with nearly all lines of business. From a population of half a dozen souls in 1887, Campbell has grown until now there are over six hundred people living there, while surrounding the town there are over three thousand people. All seem to be in a prosperous condition, happy and contented."

ACCORDING to the advance press sheet of the Interstate Commission, there were 43,266 employees injured and 3,367 killed in 1904, as compared with 33,711 injured and 2,516 killed in 1902. The figures for 1903 are intermediate between those for 1902 and 1904. In 1904 there were 8,077 passengers injured and 321 killed; in 1902, 6,089 injured and 303 killed; in 1903 there were 6,973 injured and 321 killed. The increase in the number of deaths of passengers in train accidents in 1904 compared with 1903 is 64½ per cent. The fact that there were ten unusually disastrous accidents during the year is mentioned, with the statement that notes concerning the causes of these accidents will be found in the appendix to the report. The number of deaths, resulting from these ten accidents, eight of which were collisions, is about 23 per cent of the total number killed in all the train accidents of the year, which comprise over 6000 collisions and 4,800 derailments. Although there has been earnest discussion of the subject in the public press, it is noticeable that the very magnitude of the questions involved appears to have caused some confusion, and in the multitude of causes assigned the real question in many cases has been lost sight of. The paramount requirement, as pointed out in the last annual report, is an effective measure for the prevention of collisions.

PRESS NOTES

J. L. Hagelin and family spent Christmas in San Francisco.

Miss May Beard of San Francisco has been visiting with Miss Mary Lewis.

Miss Eva Brower of Alameda is spending the vacation with Mr. and Mrs. Atkinson.

Mr. and Mrs. C. Thackeray spent Monday and Tuesday with relatives at Palo Alto and did full justice to turkey.

Sebe Weeks came home from Stockton to spend Christmas with his parents. He has a good position up there, but thinks there is no place like Campbell, however.

Mr. Atkinson's S. S. class spent a very enjoyable evening at the parsonage last Tuesday evening. Games, candy, listening to the weird noises of invincible goblins caused the time to slip by all too quickly.

"It's a boy!" was all that Jack Fore would say last Friday, December 23rd. On that day a baby boy made his advent into the Fore family, and the happy parents are receiving congratulations from their friends.

The W. C. T. U. will take charge of the prayer meeting in the Congregational church on Tuesday afternoon, Jan. 3rd, at 2 o'clock. Will hold a prayer meeting with a program in the Methodist church on Friday afternoon, Jan. 6th, at the same hour.

Mrs. C. E. Hanger entertained her Sunday school class of young ladies Tuesday afternoon and evening at her beautiful home on the Los Gatos road. After a pleasant afternoon's entertainment a supper was served, and games and the beauties of a parlor Christmas tree loaded with presents made up the rest of the evening's pleasure.

At the Congregational church next Sunday morning the subject will be: "The Secret of Bright Christians." In the morning will be the sacrament of the Lord's Supper. The evening service will be a combined service of the Endeavor and church service, beginning at 6:30. Special music and a special program has been arranged. Miss Gertrude Smith is the leader. At the close the pastor will speak on "What the World has a right to expect of young people." A most cordial invitation is extended to all.

Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles if not ended earlier by fatal termination. Read what T. R. Beall of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by P. F. Farrington, Druggist. Price 50c, and \$1.00. Trial bottles free.

BEING THE "SCHOOLMARM."

(Continued from Second Page.)

proved to be too deep we would have to stop and wait for daylight.

Darkness fell when we were halfway up a big mountain and twelve miles of the trail still lay before us. Far below us feathery white fog was rising from all the water courses, and filling the dark ravines. The lightning played about the peaks, and a few big drops of rain fell. Off in the wavering shadows a melancholy owl called, "Who! who! who!" Soon we reached the summit of the mountains that divide Trinity and Siskiyou Counties and were traveling between rocky ledges and scrubby pines stunted by long combat with the bitter winds that sweep up from either gorge. The dark storm clouds parted, and the full moon shone forth. Never was the light more welcome! The yellow beams were reflected back from the great seas of fog, far, far below—we were alone in a vast world of silence on the highest point of the mountains. It was grand!

On rounding a wooded knoll, we came to the snow. The pine branches were weighted to the earth with the icy crystals. One thought of Christmas-time in some far northern clime, and found it hard to realize that it was only September in sunny California. On and on, through the snow and wind—it was cold, oh, so cold. At last from a dark glade came the tinkle of a bell. "Patten's burrows!" was the cry, "He has camped here on his way home from prospecting." Visions flashed before us of a camp-fire where we might warm our numbed bodies. Shout after shout we gave, but no answer came back from that vast silence of infinite distances which seemed to reach to the very stars, and we knew that his burrows must have wandered away from him in their search for food.

At last we reached the point where the trail turns into New River Canon, and knew that only two miles lay between us and warmth, rest and welcome. We almost tumbled off our mules for our stiffened limbs refused to act, and stumbled down the mountain in wild endeavor to get our blood to circulating once more. Down and down, with the pleasant sensation that a wooden man must have, until at last a spasm of pain shot through the muscles, a tremor, and we could feel the warm blood coursing. Past the big mine wrapt in silence, we rode, and reached Denny at eleven o'clock. Were we glad to get home? Rather.

Maybe you think people didn't seem surprised and glad to find us home next morning. Of course no one expected the "schoolmarm" to be able to take such a trip, and she has been something of a heroine ever since.

CAMPBELL

(THE ORCHARD CITY)

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State. Campbell is also connected with San Jose, Los Gatos, and Saratoga by a new Interurban electric car line.

SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) post-office which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

MINERAL SPRINGS

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

FRUIT CENTER

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot, and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE

Land values are very moderate—bare land brings from \$80 to \$300 per acre and when set to trees sells from \$200 to \$1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.

The editor and family are now enjoying some of friend E. Pagel's choice prunes, and as he thinks he has about the best quality of any around Campbell, we readily agree with him. That large sack of prunes are rapidly diminishing. We believe our people should eat more of this healthful fruit.

Call to Prayer.

The evangelistic superintendent of the Woman's Christian Temperance Union in Santa Clara County has quite generally enlisted the unions in observance of the week of prayer, beginning January 2, 1905. The burden of the thought is that God may hasten the removal of the liquor curse from our fair valley. The Campbell union have voted to observe Tuesday and Friday afternoons. They have been requested to take charge of the Tuesday afternoon meeting in the Congregational church, beginning at 2 o'clock. They also hold a meeting on Friday afternoon in the M. E. church. All members of the union and all sympathizers in the cause are urgently requested to be present and take part in these exercises.
